SUMMARY

Results-driven Software Engineer with 5+ years of experience designing, developing, and deploying scalable web applications and cloud services. Expert in Python, JavaScript, and cloud technologies. Proven ability to drive projects from concept to launch, mentor junior engineers, and collaborate cross-functionally.

SKILLS

- Languages: Python, JavaScript (ES6+), TypeScript, Java, SQL
- Frameworks/Libraries: React, Node.js, Django, Flask, Express.js
- Cloud: AWS (Lambda, EC2, S3, DynamoDB), Docker, Kubernetes
- Tools: Git, Jenkins, CI/CD, JIRA, Postman
- Databases: PostgreSQL, MongoDB, MySQL
- Testing: Pytest, Jest, Selenium
- Agile Methodologies

WORK EXPERIENCE

Senior Software Engineer

XYZ Solutions Pvt. Ltd., Bangalore — June 2022–Present

- Led a team of 3 developers to deliver a high-traffic SaaS platform on AWS, supporting 1M+ users with 99.99% uptime
- Architected microservices using Python (FastAPI), Docker, and Kubernetes, reducing deployment time by 40%
- Developed RESTful APIs and integrated third-party billing services (Stripe, PayPal), ensuring secure payment processing
- Mentored 2 junior engineers in best coding practices, code reviews, and agile ceremonies

Software Engineer

Tata Consultancy Services, Bangalore — July 2020–May 2022

- Built frontend features with React and Typescript, boosting user engagement by 25%
- Automated regression tests, decreasing manual QA time by 30%
- Enhanced database query performance by optimizing indexes and migrating legacy code

EDUCATION

B.E. in Computer Science and Engineering

Visvesvaraya Technological University, 2020

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Microsoft Certified: Azure Developer Associate

PROJECTS

Open Source Contributor — GitHub

- Contributed bug fixes and documentation improvements to popular projects (Django REST framework, React Router)
